Brew-Thru® lid (BTL) with mesh filter

ADA

The Zojirushi Thermal Gravity Pot® Beverage Dispenser (SY-BA60) goes beyond keeping beverages fresh for hours. Its innovative design makes the dispenser easy to use, and even easier to comply with ADA standards*.

One hand operation

The operable part needs a light one-hand push, and does not require tight grasping, pinching, or twisting of the wrist.

Lower operable part height

Operable part limit 48"
Lower 46"

SY-BA60's operable part height is 46" on 34" regular counter.

Less force required

The SY-BA60 requires less force than the ADA maximum of 5.0 pounds to dispense beverages. (Force required to activate operable part of SY-BA60 is 4.95 pounds.)

34"

The operable part height clears the limit of 48".

*ADA "Americans with Disabilities Act". When installed according to our specifications, our equipment applies ergonomic design principles and would meet the specifications established for operable parts under the ADA Guidelines. Our installation instructions include the currently effective guidelines for reach, clearance, clear floor or ground space. This notice is not intended as legal advice and you should consult an ADA specialist for current guidelines under Section 307-309 or the applicable regulations which apply to your service situation.
